

B2B Matchmaking Program for visitors

Our B2B Matchmaking Program creates a platform enabling exhibitors and visitors to view participants profiles and select who they want to meet during the trade fair.

The B2B Matchmaking Program at bauma CONEXPO AFRICA will offer several benefits: This program enables visitors to be proactive in setting up meetings before arriving at the trade fair maximizing the networking experience.

By researching exhibitor profiles, visitors can select who they want to meet, send a meeting request and confirm all their meetings at convenient times for the meeting invitee. The online diary allows both visitors and exhibitors the ability to track meeting requests providing up to date information through a private online B2B Matchmaking Program account.

To use the B2B Matchmaking Program, you need to register as visitor for the trade show and agree to the terms and conditions of our partner ExpoWiz Connect B2B Matchmaking Program.

Register online before the show starts and arrange business meetings with fellow experts from Sub-Saharan Africa and rest of the world:
